April 29

School Choice applications due. To exercise school choice, all forms are due via mail to the CIUUSD School Choice Processing Office. In person applications cannot be accepted at this time due to COVID-19.

May 8

The CIUUSD will mail letters to parents/guardians explaining school choice placement for their child and general information and timelines for their son/daughter's individual school.

May 22

On or before this date, parents who have received acceptance into the school choice program must notify CIUUSD if they would like to exercise their school choice. Once confirmation is received, the central office will forward the enrollment information to individual schools. The school will add children and parents to their rosters and database -- communication about next year will then be through the choice school.
